

Birch Ward News – Oct 2024

Cllr Toni Fagan

The Wyescapes Landscape Recovery project brings together 50 land holdings covering more than 5000 hectares along the river corridors, spanning the county of Herefordshire from north to south. We are acting as a collective to restore the Wye, recover habitats and species while producing high quality food and produce.

Nature Recovery Networks - Local Nature Recovery Strategies (LNRS) are a flagship measure to create or restore [half a million hectares](#) of wildlife-rich habitats in England. There are 48 strategies linking up to each play their part. The LNRS in Herefordshire will develop priorities that are important locally e.g. improving water quality within the River Wye
